

Coaching Tool Library

Sixteen reusable tools that carry a lesson into the week between lessons. Each one answers a problem the student can name, so the tool gets used instead of filed.

Grip and Setup

No.	Tool	Format	Prescribe it when
01	Left Hand Grip	Card	Handle in the palm, right hand compensating, ball leaking right, club crossing at the top.
02	Short Game Grip	Card	Full swing grip showing up on chips, face variable, inconsistent contact inside 30 yards.
03	Hip Alignment	Card	Ball will not start on line, shape will not repeat, hips open at address.
04	Core Type and Stance Width	Card	First lesson framework. Stance width fights the golfer's natural pivot.
05	Five Step Setup	Card	Solo practice with no structure. Give it to every student after lesson one.

Ball Flight and Dispersion

No.	Tool	Format	Prescribe it when
06	Path and Face Window	Card	Hook, block, or a draw that comes and goes. Path too far in to out.
11	Dispersion Tracker	Sheet	Mixed misses across the bag. You need data before the next lesson.
12	Strike Pattern Tracker	Sheet	Heel or toe contact pattern that needs to move toward center over weeks.
13	Shot Shape Tracker	Sheet	Building a shape. Student needs to call the shot and score the match.

Distance and Scoring Zone

No.	Tool	Format	Prescribe it when
07	Wedge Distance Chart	Card	No carry numbers inside 100 yards. Clock system calibration assigned.
08	Carry Distance Chart	Card	Student thinks in total distance, or has no reliable number for any club.

Scoring and Decisions

No.	Tool	Format	Prescribe it when
09	Costly Shot Tracker	Card	Score does not match ball striking. Big holes are doing the damage.
14	Scoring Reality Check	Sheet	Student believes they need a swing rebuild. Show them the arithmetic first.
15	Decision Game Scorecard	Sheet	Strokes lost to decisions, not mechanics. Pin chasing and hero shots.
10	The Three Questions	Card	Student depends on the coach to diagnose. Build self assessment.

Practice and Accountability

No.	Tool	Format	Prescribe it when
16	Practice Compliance Tracker	Sheet	Homework is not getting done, or it is and the pattern has not moved.

Printing and handling

Cards

4 by 6 inches. Print on card stock, laminate in a standard 4 by 6 pouch. They live in the bag.

Sheets

US Letter. Print single sided so the student can write on them and hand them back.

Packet

The combined file prints the whole library in order. Cards first, sheets second.

How these get used

One tool per lesson, not five. The tool is the bridge between the lesson and the next session. Give the student the card that matches the single change you made, and the sheet that produces the data you want to see next time. Anything more than that gets left in the car.

Golf Achievement coaching tool library, version 1. Sixteen tools, five categories. Every tool is generic by design so it works for any student and any scoring goal.
